- (i) Generally result in extensive blood loss;
- (ii) Require major or prolonged invasion of body cavities;
- (iii) Directly involve major blood vessels; or
- (iv) Are generally emergency or lifethreatening in nature.
- (c) Publication of covered procedures. CMS will publish in the FEDERAL REGISTER a list of covered surgical procedures and revisions as appropriate.

# § 416.75 Performance of listed surgical procedures on an inpatient hospital basis.

The inclusion of any procedure as a covered surgical procedure under §416.65 does not preclude its coverage in an inpatient hospital setting under Medicare.

## Subpart E—Payment for Facility Services

#### § 416.120 Basis for payment.

The basis for payment depends on where the services are furnished.

- (a) Hospital outpatient department. Payment is in accordance with part 413 of this chapter.
  - (b) [Reserved]
- (c) ASC—(1) General rule. Payment is based on a prospectively determined rate. This rate covers the cost of services such as supplies, nursing services, equipment, etc., as specified in §416.61. The rate does not cover physician services or other medical services covered under part 410 of this chapter (for example, X-ray services or laboratory services) which are not directly related to the performance of the surgical procedures. Those services may be billed separately and paid on a reasonable charge basis.
- (2) Single and multiple surgical procedures. (i) If one covered surgical procedure is furnished to a beneficiary in an operative session, payment is based on the prospectively determined rate for that procedure.
- (ii) If more than one surgical procedure is furnished in a single operative session, payment is based on—
- (A) The full rate for the procedure with the highest prospectively determined rate; and

- (B) One half of the prospectively determined rate for each of the other procedures.
- (3) Deductibles and coinsurance. Part B deductible and coinsurance amounts apply as specified in §410.152 (a) and (i) of this chapter.

### § 416.125 ASC facility services payment rate.

- (a) The payment rate is based on a prospectively determined standard overhead amount per procedure derived from an estimate of the costs incurred by ambulatory surgical centers generally in providing services furnished in connection with the performance of that procedure.
- (b) The payment must be substantially less than would have been paid under the program if the procedure had been performed on an inpatient basis in a hospital.

[56 FR 8844, Mar. 1, 1991]

### § 416.130 Publication of revised payment methodologies.

Whenever CMS proposes to revise the payment rate for ASCs, CMS publishes a notice in the FEDERAL REGISTER describing the revision. The notice also explains the basis on which the rates were established. After reviewing public comments, CMS publishes a notice establishing the rates authorized by this section. In setting these rates, CMS may adopt reasonable classifications of facilities and may establish different rates for different types of surgical procedures.

[47 FR 34094, Aug. 5, 1982, as amended at 56 FR 8844, Mar. 1, 1991]

#### §416.140 Surveys.

- (a) Timing, purpose, and procedures. (1) No more often than once a year, CMS conducts a survey of a randomly selected sample of participating ASCs to collect data for analysis or reevaluation of payment rates.
- (2) CMS notifies the selected ASCs by mail of their selection and of the form and content of the report the ASCs are required to submit within 60 days of the notice.
